

HENSEL

More than 35 years of flexibility • competence • reliability

Delivery programm

Moulding plants

- Compl. mechanical moulding plants for cold-resin bound sand
- Continuous mixer (stationary, fixed, movable, adjustable for height, remote controlled)
- Single equipments such as: Vibration tables, Flooding station, Turn over separating device,

Sand reclamation plants

- Compl. sand reclamation plants for cold-resin bound sand incl. Mech. reclamation systems
 - Single equipmentfor example: Vibrations-crusher, Fluid-bed sifter, Cascade sifter, Fluid-bed cooler-sifter, Sand-reflux-cooler, Sand warmerr

Pneumatic conveying systems

- Pneum. conveying systems for dry, granular, and free flowing bulk materials using the thrust-conveying process
- Pneum. conveying systems for dustlike materials using the aeration conveying process
 - Single component for example: Conveyors, Tubes usw.

Engineering service

- Planning of foundry plants
- Mounting and Start-up
 - Service
